

IN THE SPECIFICATION

Replace the paragraph beginning at page 5, line 7 with the following rewritten paragraph:

Fig. 3 shows an example of two MAC_ID blocks. F-ACKCH0 carries bitmap field #1 starting from 64 to 160 and [[F-AKCH1]]F-ACKH1 carries bitmap field #2 from 161 to 256. A mobile station 2 with a MAC_ID less than or equal to 160 monitors F-ACKCH0 to receive signaling from a base station 1. A mobile station 2 with a MAC_ID greater than 160 monitors F-ACKCH1 for signaling.
